

SELECT *

FROM resourcetbl

WHERE rate BETWEEN 10 AND 20

ORDER BY rate;

The screenshot shows the Oracle SQL Developer interface. The main window displays a SQL query in the Worksheet area:

```
1 SELECT *
2 FROM resourcetbl
3 WHERE rate BETWEEN 10 AND 20
4 ORDER BY rate;
```

The Results window at the bottom shows the query results in a table format. The table has three columns: RESNO, RESNAME, and RATE. The results are as follows:

RESNO	RESNAME	RATE
1	R100 attendant	10
2	R102 usher	10
3	R105 food service	10
4	R104 janitor	15
5	R101 police	15
6	R103 nurse	20

The interface also shows a tree view on the left with various database objects like EXPDEP001S, EXPDEP002S, etc. The status bar at the bottom indicates 'Line 4 Column 15', 'Insert', and 'Modified'.
